ZERO GRAVITY
Air Balancer Control Kit

ZERO GRAVITY AIR BALANCER CONTROL KITS

Defy Gravity to Have the Perfect Ergonomic Solution

Extend your possibilities, with a simple plug & play solution. The new Zero Gravity air balancer control kit has been designed to be installed on any new or existing Ingersoll Rand® air balancer. The Zero Gravity air balancer kit offers an intuitive solution for improved ergonomics, operator comfort, maneuverability, & productivity.

OPTIONAL INTEGRATION: Control box software can be modified for specific lifting applications

COMPATABILITY: Ability to add to any Ingersoll Rand® balancers with 150-500lb capacity

PLUG & PLAY SOLUTION: Limits down time with intuitive setup & no specific training needed

OPTIMAL MANEUVERABILITY: Via handle or directly on the load once it has been lifted & stabilized
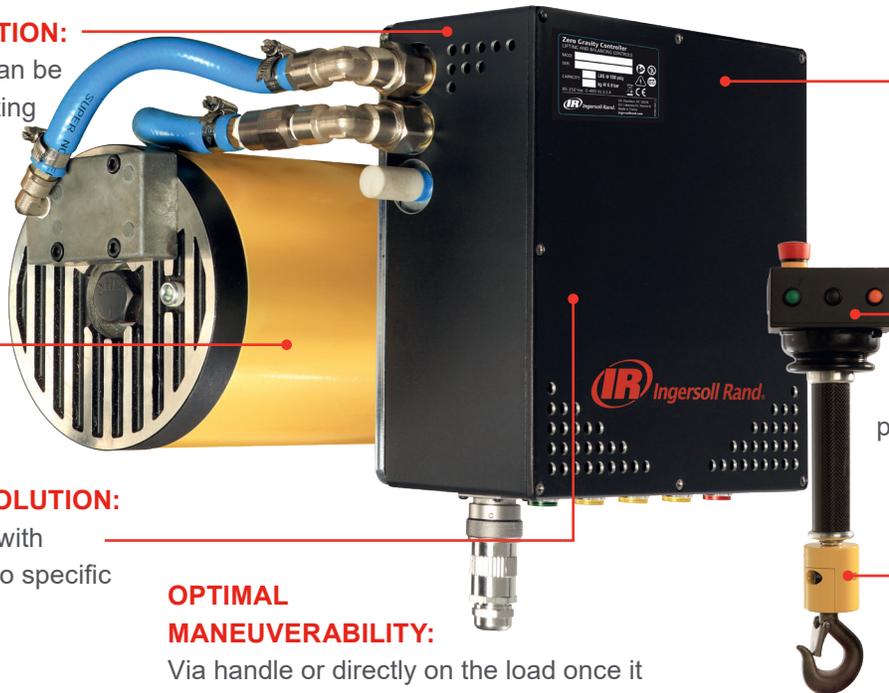

PRODUCTIVITY: With the addition of the electronic control box the system automatically balances different loads with instant load calculation.

OPTIMAL CONTROL & ERGONOMICS: Inline handle actuation without the need for push button controls for optimal operator comfort.

FLEXIBILITY: Ability to integrate controls with ergonomic lift assist, with 3 available programmable inputs/outputs.

ZERO GRAVITY Balancer
